a farm home in this state on conditions that attracted the best farmers from other parts of the country. Those who have read the commission's report and those who have read the carefully guarded statements criticising it must realize that there are too many individual losses. hardships and disappointments for the good of the settlers themselves or for the state.

· California agriculture was given a generosity of the federal government giving away its fertile lands to makes a new policy necessary if the development and settlement of the intelligence and virility. There are who are anxious for a real oport tunity to acquire a farm home on terms and conditions that make success probable as well as possible.

Senator Breed of Oakland, himself a well known, successful realty operator and farm land owner, has which embodies the features of successful colonization systems in other countries, and provides for a demonstration by the state of those workable land settlement policies. This bill is known as senate bill No. 584 and has been prepared by the state commission on lond colonization and rural credits.

This demonstration by the state will do more toward pointing the way for a successful colonization system than any amount of writing or advertising.

Financiers will see in it a safe investment. Farmers and prospective settlers will see in it an oportunity to acquire a farm home. Land owners will see in it a safe means for the disposal of their acreage, and business men and bankers will see in it a means for increasing the productivity and wealth of the people of the state.

The Right Road. Young man, you are a locomotive you are a thing that goes by power inside of you; you are made to go. In fact, considered as a machine: you are very far superior to a locomotive. The maker of a locomotive is a man: your maker is man's Maker. You are as different from a horse or an ox or a camel as a locomotive is different from a wheelbarrow or a cart or a coach. Now, do you suppose that the being who made you-manufactured your machine and put into it the motive power-did not make a special road for you to run upon? My idea of religion is that it is a railroad for a human locomotive and that just as sure as it undertakes to run upon a road adapted only to animal power it will bury its wheels in the sand, dash itself

among rocks and come to inevitable wreck .- J. G. Holland. Sort of a Warning.
